

## Table of Contents

| Code          | Substance                                       | Constituents  | Hazard/Risk<br>H M L | Date of Assessment |
|---------------|---|---|----------------------|--------------------|
| <b>CO 001</b> | <a href="#">Ordinary Portland Cement</a>        | Calcium silicates, Aluminates and small quantities of magnesium, sodium, potassium  | M                    | January 2019       |
| <b>CO 002</b> | <a href="#">Mortars, Renders and Screeds</a>    | Sand, cement, lime and water mixture with various pigments as colorants.  | L                    | January 2019       |
| <b>CO 003</b> | <a href="#">Ready Mix Mortar</a>                | Mixture of sand, cement and water mixture with or without admixtures of various pigments as colourants and hardeners.   | L                    | January 2019       |
| <b>CO 004</b> | <a href="#">Pre-Cast Concrete Blocks</a>        | A mixture of cement, natural aggregates and admixtures to aid the curing process, may contain Quartz.   | L                    | January 2019       |
| <b>CO 005</b> | <a href="#">Clay Bricks</a>                     | Solid clay fired blocks with various face finishes may contain silica.  | L                    | January 2019       |
| <b>CO 006</b> | <a href="#">Cutting Bricks/Blocks (Dust)</a>    | Fired clay or concrete bricks or blocks, which may contain varying quantities of silica.  | M                    | January 2019       |
| <b>CO 007</b> | <a href="#">Man Made Mineral Fibre (MMMF)</a>   | Friable Fibrous Material (glass)  | M                    | January 2019       |
| <b>CO 008</b> | <a href="#">Leptospirosis (Weils Disease)</a>   | Biological disease transmitted to people by rodents, especially rats, via their urine.  | M                    | January 2019       |
| <b>CO 009</b> | <a href="#">Gas Oil/Diesel</a>                  | Mixture of Hydrocarbons   | M                    | January 2019       |
| <b>CO 010</b> | <a href="#">Resinoid Bonded Disc and Wheels</a> | Composite of Phenolic resin, aluminium oxide and or silicon carbide and glass fibres  | L                    | January 2019       |
| <b>CO 011</b> | <a href="#">Neolith 625 SS (Degreaser)</a>      | Dark Green acidic which contains less than 18% Hydrofluoric Acid  | L                    | January 2019       |
| <b>CO 012</b> | <a href="#">Black Bituminous Paint</a>          | White Spirit 55% - 65%, Bitumen (Containing aromatic oils)  | L                    | January 2019       |
| <b>CO 013</b> | <a href="#">Hilti Resin HIT-50/20/150</a>       | A -Urethane methacrylate resin with inorganic filler contains 5%-10% methacrylate ester<br>B – Dibenzoyl peroxide (10%-15%) with inert filler as a paste                  | L                    | January 2019       |
| <b>CO 014</b> | <a href="#">Use of Petrol</a>                   | Clear yellow liquid with characteristic petroleum hydrocarbon odour. Insoluble in water. Classified as a 'Special Waste' under the Control of Pollution Regulations 1980. | H                    | January 2019       |

| Code          | Substance  | Constituents   | Hazard/Risk<br>H M L | Date of Assessment |
|---------------|--|--|----------------------|--------------------|
| <b>CO 015</b> | <a href="#">Dow Corning Silicone Elastomer 785 Clear</a> | Triacetoxo(ethyl)silane, Methyltriacetoxysilane  | M                    | January 2019       |
| <b>CO 016</b> | <a href="#">Dow Corning Silicone Elastomer 785 White</a> | Triacetoxo(ethyl)silane, Methyltriacetoxysilane  | M                    | January 2019       |
| <b>CO 017</b> | <a href="#">Boss Gastite</a>                             | Lubricant  | L                    | January 2019       |
| <b>CO 018</b> | <a href="#">Boss White</a>                               | Lubricant  | L                    | January 2019       |
| <b>CO 019</b> | <a href="#">Ferroquest CQ7150</a>                        | Tetrapotassium ethylenediaminetetracetate<br>Ethylenediamine tetraacetic acid tetrasodium salt                                   | M                    | January 2019       |
| <b>CO 020</b> | <a href="#">L.P.G.</a>                                   | L.P.G. = 56%, Methyl acetylene propadiene = 44%  | H                    | January 2019       |
| <b>CO 021</b> | <a href="#">Propane Gas</a>                              | Propane 99.5% (contains mercaptan / ethaneiol as an odour agent)   | H                    | January 2019       |
| <b>CO 022</b> | <a href="#">Sentinel X100</a>                            | Benzotriazole, Sodium molybdate  | L                    | January 2019       |
| <b>CO 023</b> | <a href="#">Sentinel X300</a>                            | Neutral solution of phosphate and organic base   | L                    | January 2019       |
| <b>CO 024</b> | <a href="#">Sentinel X400</a>                            | Neutral solution of synthetic organic polymer  | L                    | January 2019       |
| <b>CO 025</b> | <a href="#">Liquid Gloss Paints</a>                      | Cobalt Carboxylate <1% Xylene 1-5%   | M                    | January 2019       |
| <b>CO 026</b> | <a href="#">Vinyl Matt Paint</a>                         | Ammonia Solution...50% <1%.  | L                    | January 2019       |
| <b>CO 027</b> | <a href="#">Masonry Paint</a>                            | Ethylenedioxy)Dimethanol <1% Ammonia Solution...50% <1%  | L                    | January 2019       |
| <b>CO 028</b> | <a href="#">Acrylic Eggshell</a>                         | No significant hazard - Water Based Paint  | L                    | January 2019       |
| <b>CO 029</b> | <a href="#">Contract &amp; vinyl silk emulsions</a>      | AMMONIA SOLUTION...50% <1% (ETHYLENEDIOXY)DIMETHANOL <1%   | L                    | January 2019       |
| <b>CO 030</b> | <a href="#">A814 PT A – W139 Adhesive</a>                | No significant hazard  | L                    | January 2019       |
| <b>CO 031</b> | <a href="#">A814 PT B – W139 Adhesive</a>                | Diphenylmethane Diisocyanate (Isomers and homologues)  | M                    | January 2019       |
| <b>CO 032</b> | <a href="#">Dunlop Cement Based Adhesives</a>            | Calcium silicates, Aluminates and small quantities of magnesium, sodium, potassium, Chromium (VI), respirable crystalline silica | M                    | January 2019       |

| Code          | Substance   | Constituents  | Hazard/Risk<br>H M L | Date of Assessment |
|---------------|---|---|----------------------|--------------------|
| <b>CO 033</b> | <a href="#">Dunlop Cement Based Grouts</a>              | Calcium silicates, Aluminates and small quantities of magnesium, sodium, potassium, Chromium (VI), respirable crystalline silica  | M                    | January 2019       |
| <b>CO 034</b> | <a href="#">Dunlop dispersions adhesives and grouts</a> | Water based dispersions containing organic polymer, mineral fillers, organic and inorganic additives.   | M                    | January 2019       |
| <b>CO 035</b> | <a href="#">Gypframe Metal Sections</a>                 | Mild steel sections coated by zinc electrolytic process or hot dip galvanised process. The sections may have a protective film of a roll forming hydrocarbon lubricant or a residue of cutting fluid.             | L                    | January 2019       |
| <b>CO 036</b> | <a href="#">Plasterboard</a>                            | Quartz (silica), Man Made Mineral Fibres (MMMF)   | L                    | January 2019       |
| <b>CO 037</b> | <a href="#">Thistle Bonding Coat</a>                    | Calcium sulphate hemihydrate. Natural constituents may include clay, limestone and minor amounts of quartz. Additives may include minor amounts (less than 4%) of hydrated lime.                                  | M                    | January 2019       |
| <b>CO 038</b> | <a href="#">Thistle Universal One Coat</a>              | Calcium sulphate hemihydrate. Natural constituents may include clay, limestone and minor amounts of quartz. Additives may include minor amounts (less than 1%) of hydrated lime. Also contains perlite aggregate. | M                    | January 2019       |
| <b>CO 039</b> | <a href="#">PVA Glue</a>                                | 4-Dimethylcyclohexyl dibenzoate trans-1 ,4-dimethylcyclohexyl dibenzoate<br>Poly Vinyl Alcohol  | M                    | January 2019       |
| <b>CO 040</b> | <a href="#">Mr. Sheen Trigger</a>                       | Aliphatic hydrocarbons, Silicone oil  | M                    | January 2019       |
| <b>CO 041</b> | <a href="#">Select Aerosol</a>                          | Aliphatic Distillate 5-10 %, Butane 10-30%, Kerosene - Narrow Cut - Non Aromatic 5-10%  | M                    | January 2019       |
| <b>CO 042</b> | <a href="#">Nitrogen (Oxygen Free)</a>                  | Nitrogen (Oxygen Free) Contains no other components or impurities which will influence the classification of the product.   | M                    | January 2019       |
| <b>CO 043</b> | <a href="#">Refrigerant Gas R404A</a>                   | Pentafluoroethane (HFC125) – 44%, 1,1,1-Trifluoroethane (HFC143a) – 52%, 1,1,1,2-Tetrafluoroethane (HFC134a) – 4%   | M                    | January 2019       |
| <b>CO 044</b> | <a href="#">Refrigerant R134a</a>                       | 1,1,1,2-tetrafluoroethane - 99.9%   | M                    | January 2019       |
